AUTOMATED SOLUTIONS

COMPONENT PROCESSING

The **VERSACOUNT II+** is our latest Parts Counter that can operate with surface mount devices, as well as axial and radial taped components with very little transition time.

V-TEK's **VERSACOUNT II+** can be programmed to count a specific number of parts. When programmed to do so, it will detect empty pockets and display the actual number of parts along with the number of empty pockets (EPD optional).

No parts counter is right for the job if it is not accurate. The **VERSACOUNT II+** provides a 100% accurate count whether going forward or backward.

FEATURES:

- Bi-directional counting from 2 mm pitch up to 104 mm pitch
- User friendly operator interface
- Works with standard SMD carrier tape widths from 8 mm to 120 mm
- Accepts standard axial and radial reel diameters as well as 7" and 13" SMD reel diameters with standard arms. Optional riser allows use of 22" reels
- Can be programmed to count a specific number of parts
- **Optional EPD Features**
 - Stops on programmed number of consecutive empty pockets
 - Optional EPD works with black embossed tape from 4 mm to 104 mm pitch and clear embossed tape from 8 mm to 104 mm pitch
- Operator interface will display actual number of parts along with number of empty pockets
- Dimensions: height 13" (33 cm) width 36" (92 cm) depth 11.50" (29 cm)
- Power required: 120/230 VAC, 50/60 Hz Weight: 26.00lbs (12.00 Kg)

OPTIONS:

- Riser for 22" diameter reel
- EPD
- Axial/Radial module
- Thermal Label Printer with barcode
- PC Software Communications
