COMPONENT PROCESSING

The **VERSACOUNT II+** can operate with surface mount devices, as well as axial and radial taped components with the optional module.

V-TEK's **VERSACOUNT II+** can be programmed to count a specific number of parts.

With the optional Empty Pocket Detector, it will detect empty pockets and display the actual number of parts along with the number of empty pockets (EPD optional).

No parts counter is right for the job if it is not accurate. The **VERSACOUNT II+** is designed to provide a 100% accurate count whether going forward or backward.

FEATURES:

- Bidirectional counting from 2 mm pitch up to 104 mm pitch
- User friendly operator interface
- Works with standard carrier tape widths from 8 mm to 120 mm
- Accepts 7 and 13 inch reels
- Can be programmed to count a specific number of parts
- Interface can display all standard and optional measurements
- Dimensions: height 13" (33 cm) width 36" (92 cm) depth 11.50" (29 cm)
- Power required: 120/230 VAC, 50/60 Hz Weight: 26.00lbs (12.00 Kg)

OPTIONS:

- Riser for 22" diameter reel
- EPD
- Axial/Radial module
- Thermal Label Printer with barcode
- PC Software Communications
